

Joshua Harvey is an emerging visual artist, working primarily in the fields of painting and photography. He is interested in the relationship between the self and the surrounding landscape, often relying on a blend of figuration and abstraction. He sees photography as a way to examine the world as it presents itself. Whilst his painting practice allows him to tap into more subconscious ideas and expressions. He finds there is a resistance that can form when attempting to traverse this in-between space, but it is a source of inspiration.
